- Choose your game piece and move it up, outside the first square.
- Click on either the hand or the dice icons to roll the dice.
- Move your game piece forward that many spaces.
- (Optional, if you roll a 6, move back 2 spaces.)
- If the square you land on has a circle with an "i" in it (instruction icon), click on the icon. Read the "instruction card." Click on the "X" in the top right corner of the pop-up box to close the instruction window.
- To draw a card, click on the purple deck of cards. Read the card and then click on the "X" in the top right corner to discard. Move your game piece forward the amount noted on the "instruction card." If you forgot how many spaces, you may again click the instruction icon on that square.
- Continue play until your game piece reaches the checkered flag. (You do not need an exact number on your dice to win – you may have more.)
