## Building Healthy Relationships to Prevent Divorce Developing Your Future Relationships

We learned about the difference between healthy and unhealthy relationships. Different traits help to build healthy relationships.

Today you will choose the traits you want to have in your relationships and in your future marriage, as well as what you do not want to have in those future relationships. **Think about what you can do to develop those traits within yourself.**

### Activity Directions:

First, place the white "WHAT I WANT IN A RELATIONSHIP," and "WHAT I DON'T WANT IN A RELATIONSHIP," at the top of each column. Then, align the desired traits within the two columns.

**Have fun!**
